## PROFESSIONAL SUMMARY

---

Final-year Computer Engineering student with hands-on internship exposure to DevOps and cloud-native workflows, including Docker, Git/GitHub, Linux, workflow automation (n8n), and AWS, alongside solid full-stack development skills in JavaScript, Node.js, React, and SQL databases (PostgreSQL, MySQL). Genuinely interested in building a career in DevOps and automation, with a strong foundation to grow from and an eagerness to learn.

## EXPERIENCE

---

### Full-Stack Development Intern | Teqto Infotech, Rajkot

June 2026 – July 2026

- Gained hands-on experience with Docker for containerization, Supabase, and multiple database systems including PostgreSQL and MySQL for application development, data management, and deployment.
- Developed and maintained n8n automation workflows to streamline business processes and integrate third-party services.
- Built application components using Python and its ecosystem of libraries to support backend development and automation tasks.
- Worked with modern JavaScript technologies including React.js, Next.js, Node.js, and Express.js to build and enhance web application components.

### Web Development Intern | CloudKosmos Consultancy Services, Rajkot

May 2023

- Gained exposure to virtualization (VMware) and cloud platforms (AWS).
- Developed front-end components using HTML, CSS, and JavaScript.
- Explored JavaScript frameworks, including NodeJS and ExpressJS.
- Built a personal website using WordPress.

### Desk Support Engineer | SpeedOBits Internet, Rajkot

July 2022 - Oct 2022

- Hands-on experience with fiber-optic, ethernet, routers, switches, and ONT/ONU devices.
- Configured and managed network devices, improving troubleshooting efficiency.
- Assisted customers with broadband and networking issues.
- Efficient real-time problem diagnosis and resolution.

## EDUCATION

---

### Bachelor of Engineering – Computer Engineering

VVP Engineering College (GTU) | 2024 - 2027 (currently pursuing)

### Diploma of Engineering – Computer Engineering

Atmiya University – 6.57 CGPA | 2021-2024

### SSC/10th - [GSEB]

Sarvodaya Vidyalaya – 87% | 2021

## SKILLS

---

**DevOps & Cloud** - Networking, Git/GitHub, Docker, Linux (Ubuntu/Mint), Shell-Script, Supabase

**Programming Languages** – Python, Java, PHP

**Frameworks & Libraries** – Node.js, Express.js, React.js

**Databases** - MySQL, PostgreSQL

**Markup & Styling** – HTML5, CSS3, JavaScript

**Other Tools** - VS Code, Antigravity IDE, Antigravity CLI, Codex, Postman, WordPress, Quality Prompting

**Soft Skills** - Time Management, Leadership, Team Co-Ordination, Quick Learning, Communication Skills

**Languages** – Gujarati, Hindi, English

## PROJECTS

---

### **Portfolio – React.js, JavaScript**

- Designed and implemented a responsive portfolio website using React.js and JavaScript.
- Showcased personal projects, technical skills, and professional experience.
- Ensured cross-device compatibility (responsiveness) for an optimal user experience.

### **Tech Blog Website – WordPress, XAMPP**

- Developed a dynamic blog platform to deliver tech content to a diverse audience.
- Implemented responsive UI with seamless navigation and optimized content management.

### **Paradise Clothing [E-commerce Shopping] – HTML, CSS, JavaScript**

- Built a responsive e-commerce web application with dynamic product filtering, search, and client-side cart management using local storage in vanilla JavaScript.
- Designed a modular, component-based frontend with clean UI/UX and a consistent theme, ensuring scalability and maintainability.
- Implemented structured data-driven rendering to simulate real-world e-commerce behavior without backend dependencies.

## ACTIVITIES & ACHIEVEMENTS

---

Awarded multiple certifications for technical, cultural, and organizational activities during academic tenure.
